Dr. Henry Blackburn  
Associate Professor  
School of Public Health  
Physiological Hygiene  
Stadium Gate 27  
University of Minnesota

Dear Doctor Blackburn:

In your letter of December 18 you inquire as to my possible approval of your accepting appointment as Associate Editor of CIRCULATION, said service to require approximately six hours a week and to provide a stipend of approximately \$3500 a year. Approval of extra University service of this character can be granted only by the Board of Regents. I am enclosing the forms that must be completed and submitted to the Board through the Office of the School. Personally I am strongly in favor of such service and, when the form comes to me, shall recommend its approval. That they want you to serve in this capacity is, I believe, a real tribute to you and one in which both you and the University should take legitimate pride.

Very truly yours,

Gaylord W. Anderson, M.D.  
Mayo Professor and Director  
School of Public Health
