MEMO TO: Bill and Norris

FROM: Henry Blackburn

I'll send the Finnish H. D. editing back from New York Airport.

We should be in shape to pursue, and complete by September 20 I hope.

A. Relation of each ECG item in the tables to:

- 1) Smoking habit (as ACTA)
- 2) Physical activity class (As ACTA)
- 3) Lung volumes if possible and where available.

B. Relation of post exercise ST items to:

- Total mortality
- CHD mortality
- All cardiovascular mortality

Subclasses by age 10 years

- BP 2 classes
- RBW 2 classes
- S. Chol. for indicated items
