Dear Dr. Blackburn:

Thank you for lending your support to our application to Minnesota Heart Association for funding for 1975-76 for our School Nutrition Education Program. I also appreciated receiving your article Progress in the Epidemiology and Prevention of Coronary Heart Disease. The article was distributed to science department staff members in several secondary schools. I hope that through education and involvement of students in innovative health and nutrition programs we can help lower the risk factors apparently inherent in CHD.

I look forward to meeting with you on December 26, 1974 at 2:00 p.m. to discuss how we in Minneapolis Public Schools can join forces with you and your colleagues for a preventive approach to CHD. Margo Brown nutritionist for the School Health Demonstration Project will join us at that time.

Best wishes for the holidays.

Sincerely,
Shirley Z. Brown
