December 22, 1982

Dear Dr. Blackburn:

Thank you very much for the copy of your letter which arrived here safely on Dec. 19th. At last. Thank you also for your paper which is very precious for me since there are not much reviews around here.

Of course, I would much welcome a seminar in Minneapolis since there are also some laboratory researches about salt and hypertension which I could not undertake in the COLLEGE de FRANCE (Paris) for lack of funds and which could be perhaps in the range of your interest ?

I would be also much pleased if you could stop in Rabat so that we may have a short trip (one day ?) in the country under the Moroccan tents if this is convenient for you.

However, according to the mailing problems (which may include telephone and cables...), please let me know as soon as possible the date of your arrival in Morocco (i.e. your schedule, Flight number, etc) and, for more security, send the same information to Mr. William H. Marsh - Political Section - in the U.S. Embassy in Rabat (Av. de Marrakech, Tel. 622 65).

Meanwhile, I am sending you through separate mailing a few of my papers about Diet, Hypertension..and Fat storage in Sahara that perhaps you would be interested in.

With my best wishes.

Yours sincerely,

C. Paque

Dr. Claude Paque, M.D.

P.S. Please send all letters through Registered Mail. Thank you.
