Dr. Charles S. Davidson  
Visiting Professor of Medicine  
Massachusetts Institute of Technology  
Clinical Research Center  
50 Ames Street  
Cambridge, Massachusetts 02142

Dear Dr. Davidson:

Many thanks for your very kind and cordial letter of 5 October with comments on my review about Diet and Mass Hyperlipidemia. I enclose a copy of the final version which I have sent for publication to Dr. Levy.

I was particularly disturbed by Phil White's setting himself up as the representative of all of organized medicine on the issue of National Diet Goals. George Mann's publication is, of course, an intellectual disgrace.

Cordially,

Henry Blackburn, M.D.
