Professor H. BLACKBURN

Dear Henry,

Hold his we find new.

It is a pity that you are missing the meeting in Brussels and in Erice ! I hope we will meet later in some part of the world !

Thank you very much for your paper. I remain very interested by the problem of physical activity as a prevention of coronary disease, but not yet completely convinced ! (is it possible to receive a copy of Blackburn and Gillen, (référence n° 1)

Thank you again and best regards,
