Dear Friends:

I kept no copies of Figure 9 in the Methods Manual, a composite illustration on ECG amplitude and interval measurements.

Please be good enough to send me soon the original or a glossy print as this is being published in a Japanese version of Dr. Simonson's book.

I plan to stop by on August 24th, unfortunately just between planes. Nelly and I leave for Corfu the evening of the 24th.

I would be particularly interested in your ideas whether anything useful can be accomplished in the meetings at Delhi.

Cordially,

Henry Blackburn, M.D.
