CONFIDENTIAL

TO: Aaron Folsom
FROM: Henry Blackburn
SUBJECT: Future Support

My secretary can't find any evidence that I put down in writing what you are assured about with respect to support for next year. This is my guarantee that (barring holocaust,) we are enthusiastic to have you on the faculty and to support you at the equivalent of the present level for another year beginning July, 1982. You should know that this enthusiasm would extend beyond 1983 if you were interested. You have made a substantial contribution to our operation and we hope that the research and administrative training will prove valuable to you.
