District Director U. S. Customs
177 U. S. Courthouse
Minneapolis, Minnesota

Attn: Mr. William Foster

Dear Mr. Foster:

I am contracting for a Canadian firm (Dalhousie University, Halifax, Nova Scotia) to build for the University of Minnesota, a medical instrument for research purposes. This is a control box to allow recording of electrocardiograms on special magnetic tape machines in our possession.

I will either import this instrument directly here, or pick it up in Canada for use in Europe this Fall, importing it sometime in the future when the overseas project is completed.

Total value of the instrument is \$3600.00. Please inform me of the duty to be anticipated at such time as the instrument, either new or in a used state, is brought back to the University.

Sincerely,

Henry Blackburn, M. D.
