Dear Dr. Kagan:

Thanks for your note, and belatedly for the observer variation material. I shall probably use it but it reflects duplicates at the same, rather than different sittings, which I have so far used in testing. So the scores aren't really comparable. Expect to drop by on August 24 for a short visit.

Regards to you and family,

Henry Blackburn, M. D.

Dear Henry,

Many thanks for your article from the Annals of the
New York Academy of Science.

I hope the data you wanted and I asked to be sent to
you last January has been of some use.

With best wishes,

Yours sincerely,
