Dear Ancel,

I hope you are travelling and feeling well. I stayed at home the stormy day of your departure to clean up my home desk and found the affidavits I had wanted to give you earlier.

I'd be grateful for your comments and criticism of them. I'm still not happy with the implications that one added egg could cause 25,000 extra CHD deaths. It's "misleading advertising", but I'll try to get it back on track.

No news on the subpoena.

Regards to Klepetar's, Parlin's and Karvonen's.

Thanks,

Henry Blackburn, M.D.
