Dear Chris:

It is a pleasure to be able to add to your documentation to recommend Dr. S. Tominaga for promotion.

His background and experience in your institution, plus his personal traits of industry and efficiency make him an outstanding young physician investigator. His clinical cardiological knowledge and scientific curiosity, along with technological competence, make his contributions unique.

Based on the experience of my collaboration with him in Coronary Drug Project analyses over the past three years I fully support your recommendation.

Cordially,

Henry Blackburn, M.D.  
Professor

Minneapolis, Minnesota 55455

Dear Henry:

I am proposing Tomi for a promotion to Associate Professor in the near future--a promotion which irrespective of whether or not he will stay in this country he amply deserves.

I would greatly appreciate if you could take the time to send me a letter of recommendation which has to be part of the submission.

Very sincerely yours,

  
Christian R. Klimt, M.D., Dr.P.H.  
Professor and Director
