Dr. Henry Blackburn
Dept. of Physiologic Hygiene
Memorial Stadium
University of Minnesota
Minneapolis, Minnesota 55455

Dear Dr. Blackburn:

I'll be in Minneapolis during the end of the first week of September and would like to meet with you to further discuss the North Karelia Project and analysis of the effects of screening and mass intervention in general.

I'll be going back to Kuopio in May, 1976, and will be doing a cost-benefit analysis of the project. I'm not so worried about computing the dollars and cents type of costs--all that takes is considering the proper items and adding correctly. What I am concerned about is assessing non-monetary aspects of health, e.g. anxiety, sense of well-being, security, etc. This is one of the most important parameters of "health", but is also the hardest to measure.

Let me know if you'll be available September 3, 4, or 5. I'll be at Dr. Richard Theye's, R.R. #3, Rochester, MN 55901 after August 29.

Thank You,

Tom Kottke
