Minneapolis, Minnesota 55455

Dear Henry:

Glad you enjoyed S.E.R. It was a special pleasure to see you and Nellie. I hope you will be in Houston more often as time goes on.

The tapes from the meeting will be transcribed shortly, and I am awaiting notification from all participants regarding their willingness to undertake some form of review and distribution. I'll get to you what I can as soon as possible.

I have the U.S. Seminar in mind, though it will likely be 2-3 weeks before I can get the academic year closed and really pull some thoughts together. Will keep you posted.

You can have the names of all the "young types" we find, from #2 on -----.

Aloha no,

A handwritten signature in cursive script, appearing to read "Darwin".

Darwin R. Labarthe, M.D.
