History's fun!
31 yrs!

Dear Henry:

Thank you for your letter of March 13 with regard to the U.S. CV Epidemiology Seminar. It is gratifying to know that casual discussions of the past two years are bearing fruit, and I am honored to have the responsibility for coordinating its development.

While a June meeting is some time off, I think it is most important to begin considering various matters in relation to the seminar very promptly and I would hope for an opportunity to meet with you before the end of April for this kind of discussion. Among other points, your participation in the faculty would, I hope, be on a regular basis. Perhaps I can persuade you of this when we get together.

I will look forward to being in touch with you soon. With best regards.

Sincerely yours,

Dar
