Dear Henry,

You are probably the only person to whom I do not have to apologize for the delay in thanking for the hospitality, as you also have only now got back. I hope that your hop around the world was successful after the usual initial troubles.

I am enclosing two photos which we cherish as pleasant reminders of the lovely time spent in your home. We were - once more - deeply impressed by the excellent and interesting work done in your Institute, not to speak of your devoted young staff. Would you please convey our appreciation to all of them.

Erika has already tried your salmon recipe with great success - unfortunately during my absence.

May we thank you and Nelly again for the warm "accueil", in the hope that very soon you both will give us a chance to compete!

Cordially,

George

HYGIENE

P.S. - I'll send you a copy of the report of our CBPS working group in The Hague as soon as it is finalized. It was a difficult business - I wish we could compare notes sometimes.
