School of Public Health  
Houston, Texas 77025

Dear Dar:

Many thanks for your November 10 letter and welcome. I got through the trip. No major political gaffs, no major illnesses, some very pleasant professional associations and some rather high adventure in the New Zealand mountains and trout streams, in a jazz performance on an island in Sydney Harbor, in illegal visits to the Black community of Johannesburg, and in wild animal sightings in the Krueger National Park in South Africa, plus a short layover in Rio on the way home. So it was quite an adventure, but I am content to be home and am trying to get on top of things.

I, of course, will be ~~delighted~~ to be in Tahoe for the *weekends of* August 26 and the following Monday and Tuesday, if you like.

I'll probably be in Miami staying at the Doral. See you soon.

Cordially,

Henry Blackburn, M.D.
