

June 30, 1977

Dr. Philip Lee
Professor of Social Medicine
Health Policy Program,
University of California
San Francisco, California

Dear Dr. Lee:

I was most impressed with your concise and straight forward statement introducing the McGovern Committee Report on Dietary Goals.

I would be very grateful for your keeping me on the mailing list for your department and for examples of your thinking and programs.

Cordially,

Henry Blackburn, M.D.
