

June 9, 1967

Dr. Robert Lindell  
Lowry Medical Arts Building  
Saint Paul, Minnesota

Dear Bob:

Thanks for the moments on your couch recently. I was relieved the next day, and you may be interested, to develop a very tender and painful area at the junction of the left 4th and 5th ribs and the sternum. I assume it was a chondritis sort of thing and it resolved over ten days.

Regards to you, Marge, and Miss Thill.

Henry W. Blackburn, Jr., M. D.  
Medical Director
