Dear Henry:

Our correspondence is like the problem of stamping out malaria! It is so hard to drain the last swamp.

Yes, Jim Fox is an impressive man but my connection with the Egg litigation is remote. They asked me to testify at the upcoming trial and I declined, and he would not subpoena a friend. I suppose you have been too hostile. I was astonished to learn from Rappaport that he, Fox, had subpoenaed and examined the AHA file on the Diet-Heart matter. One must be careful what he puts down these days.

Sincerely,

George
