

August 27, 1970

Dr. Arthur M. Master
125 East 72nd Steeet
New York, New York 10021

Dear Dr. Master:

Your secretary indicated to me you would return from vacation on the 25th of August. I would be most grateful to you for a preprint, if available, of your presentation before our association of insurance medical directors in Boston. This would greatly facilitate our discussions with you there, in an effort to arrive at a modified Master test for the insurance industry.

I refer you to my July 29 letter on this subject. We look forward to discussions with you. If you will be at the World Congress in London I would much enjoy discussing our common interests. (I am at the Hotel Cavendish, London).

I enclose a copy of a recent survey of safety experience in exercise testing aoon to be published and invite your comment.

Cordially,

Henry Blackburn, M.D.
Medical Director
