

May 6, 1970

Malcolm Moos, President  
202 Morrill Hall  
Minneapolis Campus

Dear Dr. Moos:

I fully support your public statements and your letter to the faculty, because they are accompanied by a forthright personal statement on government policy and because they appeal to reason. However, we can hardly blame younger people for their frustration and rage.

I imagine you have had contact with police and National Guard authorities to inquire about their planned tactics in case violence should arise. The idea of firearms on this campus is anathema.

Best Regards,

Henry Blackburn, M.D.  
Professor
