

November 15, 1966

Dr. Edmund D. Pellegrino
Dept. of Medicine
University of Kentucky
College of Medicine
Lexington, Kentucky 40506

Dear Dr. Pellegrino:

I want you to know that I consider superb your annual AACP
Lecture published in the JAMA of October 31, 1966. I wish its
spirit could be diffused such that the AMA itself could open its
mind and direct its energies constructively to the problems we must
confront.

Cordially,

Henry Blackburn, M. D.
