November 17, 1977

Dear Henry,

Thank you for sending me 5.8.1977 the comprehensive text on hyperlipidemia as public health phenomenon. Only now did I have time to read it through. I must say that I enjoyed it very much, and I can fully agree with your approach.

Things are going here in a pretty nice way. Even if we don't have the (five-year) final results available, there is a growing interest for a number of national applications. I can foresee a rather positive development in this county in the future. Attached you find a couple of texts that I have prepared for the coming WHO meeting. They may be of interest to you.

I hope to remain in close contact and hear from you.

With kind regards,

Yours sincerely,

Pekka Puska
