Denver, Colorado 80204

Dear Gerry:

Ancel Keys has a Buffalo engagement the 7th of February tied to a series of things in the East before and after. I may have intrigued him with the White, Eisenhower, Keys billing but it's no soap.

So I'll take it on and thanks. It'll be great to see you and Tom. I'll try to set down to ski Saturday to Monday, but that's not a sure thing. The pitch I try to keep up to date on is Coronary Risk Factors in general, their import, identification, and modification - 15 to 20 minutes followed by a 10-15 minute rapid five slide travelogue of the field studies - in exotic places - where there's little or a lot of coronairies. This may be too long for a big meeting. Let me know also if you want me to concentrate on nutrition only and provide specific wife-type advice and appeal.

Look forward to seeing you.

Cordially,

Henry Blackburn, M. D.
