Dear Dick:

Congratulations on still another chairmanship, the  
Association of Schools of Public Health!

I'm a bit flabbergasted over the Francis Lectureship  
on November the 10th. Maybe I could offset the edge of  
tension by your getting up a little chamber music at the  
cocktail hour afterward. Possible?

Regards,

Henry Blackburn, M.D.

P.S. The Egg Council is playing very tough and dirty. The  
enclosed draft of an allegory has helped me deal with the  
harrasment of a subpoena this week.
