

Dear Geoff: See moreover for regret,
or even for your "severe letter"
about something assumed. I
sent the severe letter, ~~as~~
which I assume others are getting,
is ill-conceived and frankly
unpleasant. Suggest you simply
send a list of next year's
faculty to ^{the} others.

Through my efforts to
suggest faculty have not been
well received in the past, I
will continue to do so. I
happen to know that Barry
Friedman & Lew Kuller would
both be most willing & able.
I do not feel that geographic
balance on the faculty is a
prime consideration in an All-English
affair.

I am, if in the general
vicinity, available to arrange future
musical entertainment - which is my
most articulate contribution I expect.
Best regards, Henry.
