

December 18, 1967

Dr. Geoffrey A. Rose
London School of Hygiene & Tropical Medicine
Department of Medical Statistics & Epidemiology
Keppel Street (Gower Street)
London, W. C. 1, ENGLAND

Dear Geoffrey:

Now that your travel funds are found and you will cross the sea, I hope you can consider again a visit with us here. Any length of stay is acceptable to us.

If it is only for a few days we hope you will agree to talk to our group and to the Department of Medicine. Could you send along a few choices of topics for advance billing? We would be interested in work in smoking, physical activity, diet and others.

We can handle your fare Atlanta--Minneapolis--New York and I will try for an honorarium.

Regards,

Henry Blackburn, M.D.
