Dear Henry:

I am sorry to be so tardy about getting these back to you, but things have been wild around here. I am enclosing Xerox copies of your original illustrations. The original figures themselves are at the publisher. I hope that this will confirm that the figures may be used.

The book is going well. Futura is projecting a publication date of about January 1. The title has been changed to Practical Management of Hypertension. Drs. Eliot and Wolf thought that this would be a better title, more descriptive of the contents. I concur.

Hope you are well and happy. I always enjoy your cheery voice when you call. Keep in touch and if there's anything else I can help with, please yell. I will send along the page proofs as soon as they arrive here.

Best personal regards,

Kris
