Dear Henry:

Thank you so much for your note with the very valuable enclosures. It is obvious, as usual, that at the type of meeting the wrong man was giving the talk and we should have heard from you. I find myself in such fundamental agreement with both you and Dr. Dreifus that I guess neither of us will have to quote H.L. Mencken.

Henry, I am constantly amazed at the prodigious number of projects that you are into and the high quality that you invest in them. I regret that we don't have more chance to visit but it is always a great pleasure to see my old friend from residency days.

With kindest personal regards,

Raymond W. Scallen, M.D.
