RECEIVED

APR 28 1975

LAB OF PHYSIOLOGICAL  
HYGIENE

Dear Henry:

We are anxious to reach the American Heart Epidemiologic audience. Would it be possible for you to spend two or three minutes of your moderator prerogatives (paragraph 2 of Dr. Harrison's letter), letting the audience know of the existence of the trial, its magnitude, qualifications for participant eligibility, objectives and gross intervention techniques? You could refer those who would wish more detailed information to Chuck Kaelber.

I think the program deadline is gone already for abstract submission.

How are you, good friend?

*Very good thanks, Hal*

Sincerely,

*Hal*

Harold W. Schnaper, M.D.  
Chairman, MRFIT Publication  
and Presentation Committee

*Return all  
as is:*

*Dear Hal: 1) My session is not at all appropriate  
for such a description of MRFIT  
2) I am not acting as MRFIT  
representative in anything, these days. Someone  
else should do it, & take the gift  
for doing it. Thanks for your efforts.*

*Best regards,*

*Henry*
