EDWARD J. CONNELLEY, M.D., Director  
300 TAPSCOTT BLVD., NORTH BOSTON, MASS.

June 6, 1973

Henry Blackburn, M.D.  
Stadium Gate 82  
Laboratory of Physiological Hygiene  
University of Minnesota  
Minneapolis, Minnesota

Dear Dr. Blackburn:

Enclosed you will find photographic prints of the pictures I took while at the Preservation Hall in New Orleans during the recent American Heart Association Epidemiology Meetings. I am also enclosing some other snapshots that you may feel at liberty to send to Dr. Remington, as I do not have his address at my fingertips. I would suspect that over the many years, you have had your picture taken many times in Preservation Hall, but I thought you might like to have this one for your own records. To prevent curling, I would suggest that the print be mounted, if you wish, on hardboard paper with regular photographic mounting paper. Both my wife and I want to thank you very much for inviting us to your "recital." It certainly made our trip to New Orleans more complete.

Sincerely yours,

Arthur B. Simon, M.D.  
Assistant Professor,  
Internal Medicine  
Heart Station
