Dear Henry:

Just a brief note to thank you for sending me your letter of June 8th to Sidney Blumenthal, concerning the AHA Ethics Committee working group on the ethics of clinical trials. I appreciate your kind words about my participation. Within the limits of the multiple major commitments we all have, I will of course try to do what I can as called upon. I prefer to serve in as limited a capacity as possible, and above all to avoid being appointed to any other committees at this point!

I thought yours was a most thoughtful letter, in terms of the questions you raised.

I look forward to being kept posted by you on the U.S.-U.S.S.R. collaborative effort. That should be intriguing!

Warm good wishes to Nellie and yourself from Rose and me -- and greetings from all at Minnelela!

Cordially,

Jeremiah Stamler
