file.

Dear Henry:

This is merely once again to express my high regard for one of your letters, in this case to the Editor of the American Journal of Epidemiology on the Marmot-Winkelstein Editorial.

I gather you will be in Ireland and not at the MRFIT Steering Committee meeting. I am looking for an opportunity for us to talk, both on the kinds of problems represented by this Editorial, the egg business, and on key challenges facing us in MRFIT. Would you please be in touch with me when you get back from abroad, so that we can try to make a date.

All the best.

Cordially,

Jeremiah
Jeremiah Stamler, M.D.
