Dr. H. Blackburn
Laboratory of Physiological Hygiene
University of Minnesota
Minneapolis, Mn. 55455

Dear Dr. Blackburn:

It seems appropriate at this time of year to indicate to you that we are most appreciative of the services of A. Leon on our Graduate Nutrition Faculty. This year, Art is serving on our Curriculum Committee.

We are sorry to have lost through retirement both J. Anderson and F. Grande. Both were valuable members of our graduate faculty.

Thank you for the contributions your group is making to this program.

Sincerely yours,

Patricia B. Swan
Patricia B. Swan, Chairman
Graduate Faculty in Nutrition

Dear Dr. S.

*I thank you for your letter.
It would like to talk to
you about the School of Public
Health nutritional program.
We need to encourage school
support for an attempt to
replace the irreplaceable
Team of Keys, Anderson & Grande.
We are delighted that*
