COPIES - SWANSON

January 27, 1982

Mr. James C. Swanson
State Representative
District 37B
226 State Office Building
St. Paul, MN. 55155

Dear Representative Swanson:

It was a pleasure to receive you and your committee in the School of Public Health and to sense your interest in important developments in the area of disease prevention. I have had my presentation of January 19 typed up and enclose it for your staff and files. Its chief value perhaps is the concept of a population approach, not solely a medical care approach, to our mass diseases. The other main point, of course, is the evidence of direct and significant yield from legislative seed monies.

Thank you much for your note.

Sincerely,

Henry Blackburn, M.D.
Professor and Director

Dr. Henry Blackburn
2108 Oliver Avenue South
Minneapolis, Minnesota 55405

Dear Dr. Blackburn:

I just wanted to drop you a note to thank you for the fine program you presented on the Minnesota Heart Health Program last Tuesday, January 19.

As the Chairman of the House Committee on Health and Welfare, I find programs such as this invaluable in helping me to understand issues before the legislature.

Again, thank you. Please feel free to contact me whenever I can be of assistance to you.

Sincerely yours,

A handwritten signature in cursive script that reads "Jim Swanson".

James C. Swanson
