Gentlemen:

Please find enclosed 3 parking tickets issued to cars parked in Lot C-14 in front of our Laboratory at the University. These tickets were issued from an error on our part to members of the general public who had been invited to the Laboratory for research purposes.

Since our continued effectiveness in completing the research is dependent on our public relations. We have accepted the tickets and present them to you with a check to cover the fines.

Sincerely yours,

Henry L. Taylor
Professor
