Dear Richard:

Congratulations on moving forward with the Conference. My only suggestions at this time are to write down and circulate the objectives of the conference, draft an outline of the program and participants, keep the responsible persons to a minimum, and keep up regular communications.

We are now experiencing the exquisite pains and pleasures of nursing at home our still alert but terminally ill 28 year old son. I have little energy for other concerns, as you can imagine.

Regards,

Henry Blackburn, M.D.

P.P.S. May I suggest you make
an editorial from E. Wynder.*
