Send order to Carol Willis to Dr. Park Willis

September 20, 1966

Henry Blackburn, M.D.
Laboratory of Physiological Hygiene
University of Minnesota
School of Public Health
Stadium Gate 27
Minneapolis, Minnesota 55455

Dear Henry:

I am sorry to be so slow in writing to thank you for your kindness to Cathy, and particularly to Carol, this summer. Each of them profited from your course and will be much more useful here. At the same time, each seemed thoroughly to enjoy herself. Carol, I think, had the time of her life, from all accounts. The only disappointment seemed to be losing her ruler in your sports car.

At any rate, I am deeply appreciative. It is a help to us, and I think gave Carol a little more understanding of biology and medicine that may help sustain her interest in becoming a physician.

Carol's schedule did not allow her to read the WHO test records until this last week end, and rather than send them on to Mrs. Hannigan at Harvard and worry about getting them back, I elected to keep the records another week. I realize this puts you a bit behind on your plans and apologize, but think it will probably be as quick in the long run. The records were sent to Mrs. Hannigan yesterday afternoon at 2:00 o'clock. I enclose with this letter the results of Cathy's initial and second readings and Carol's initial and second readings. I hope they don't turn out to be as inconsistent as they look from a superficial glance.

Thanks again very much for all of your help, kindness and hospitality this past summer. Best personal regards.

Sincerely,

Park W. Willis, III, M.D.
