7 May 1982

Dear Henry,

It is very difficult to express my thanks for all the kind hospitality extended to me by Mrs Blackburn and yourself, as well as for the excellent organization of my visit to Minneapolis.

It is difficult to return from Wobegon to reality in Geneva, and to the rush created by the World Health Assembly which is presently in session. Nevertheless, the records which you kindly gave me on my departure take me back, and I am listening to them every evening.

Many thanks. I am just wondering if it is possible to visit Wobegon also in Europe during your next visit here.

With best personal regards,

Yours sincerely,

Dr Z. Pisa  
Chief  
Cardiovascular Diseases
