

FARRIOR CLINIC  
BAYSHORE BLVD. AT HYDE PARK AVE.  
TAMPA 6, FLORIDA

IN MEMORY OF  
J. BROWN FARRIOR, M. D.  
OTOLARYNGOLOGIST  
1881 - 1931

July 6, 1959

Dr. Henry W. Blackburn  
6120 West 84th Street  
Minneapolis, 20, Minn.

Dear Henry:

I have had occasion recently to correspond with Dr. R. M. Farrier who apparently knew you in Austria. I am afraid our letters have been more lengthy in regard to the similarity in names rather than the particular patient at the hospital in Bethesda, Maryland, in whom we were mutually interested. Dr. Farrier gave me your address.

I am writing mainly to re-establish some correspondence with you and to hear how you and your family are doing. I recall with considerable delight our seeing the town in New Orleans, I believe about in 1946.

I have been back here now about three years and am most delighted with my practice which I am limiting to head and neck cancer and plastic surgery. As you know, I always was a Chamber of Commerce for Florida and I am still feeling that way and enjoying living back here.

Zerny has now completed his surgery training and has opened his office in Selma, Alabama. I had hoped to get Zeb back in this area but from what he writes, it sounds as if he will be very happy there. It is his desire to do general surgery and be in an area where he can take on anything that comes in.

Please drop me a line bringing me up-to-date on your personal and professional life. I hope that this letter finds you either at the address above or elsewhere.

Sincerely yours,

Richard T. Farrior, M.D.

Dear Dick:

Delighted to hear from you! Saw a squib in Medical News about the Farrior Clinic recently & thought of you. <sup>Congratulations on your exhibit!</sup> Never get to Florida anymore, though my parents are still active in West Palm. We often dream of all year outdoors, but ain't sure we'd never come back to roost. Bob Farrior was my noe for a few months in Salzburg & I recall discussing your name with him also.

Pleased to hear of your interesting skilled specialty. Ain't more generalized, but am getting a big kick out of my work, which takes me to ~~interesting~~ <sup>exciting</sup> places (Yugoslavia last trip) with ~~some~~ stimulating colleagues. A ~~sum-~~ down since Miami days:

Graduated Tulane '48  
interned at Wesley, Chicago, '49  
Oriente, Cuba, brief fling as a  
"missionary", where I met my wife  
American Hospital Paris '50  
married French girl met in Cuba,  
Nelly, also a preacher's kid.  
USPHS in Salzburg & Munich '53  
Medical Fellow at Minnesota '56  
Assistant Prof. Amel Keys lab.  
at Minnesota, & this insurance job  
to date. Three kids, still playing jazz.  
Thanks for news of Feb. Let's  
keep in touch. Best regards, Jerry.
