To all of my friends who so kindly contributed to my  
"Recognition Day Book"

I am most grateful for the generous and delightful composite that this book represents and for the individual information about all of you which it provides in such fine fashion. Let me thank you one and all for your willingness to take the trouble, thus to add to my great joy on September 25, the day of presentation. I can assure you that this book is one to which I shall often return with great pleasure and profit.

With genuine gratitude, and with all good wishes  
and warm regards.

Sincerely yours,

CJW

Dear Henry, many thanks for your  
fine letter. I do hope we can  
still get to go skiing together
