Aug. 29: Andy Dontas, Fetchers, Grandes, Blackburns, Mary Frances Blackburn!, Linda Cordes?, Seiki Nanbu (Kimura's son), Neibling.

Nov. 9. George Lamm

HB Notes. This summary is compiled from photoshop-adjusted raw scans of the guest book provided by Carrie D'Andrea, and returned to her. The scans are in Blackburn Sharing, a digital archive of most of the physical data in the SPH CVD History Archive prepared for the Andersen U. of Minn. archive.

Centrality in these Keys dinner parties seems to be in their local family and a few colleagues, the Taylors, Grandes,

Blackburns, Armstrongs, Klepetars, and LPH administrator, Nedra Foster.

Focus is on LPH faculty and staff, on family, on international figures in cardiology, nutrition and epidemiology, on major study groups such as diet and lipids, insurance, and Seven Countries, on NIH visitors, on international visitors and fellows, on the Stamler case with HUAC, on local medical school faculty and less on SPH faculty.

This home guest book of the Keyeses can be linked with that of the LPH kept over a longer period, with some overlapping. These records might help historians synthesize Ancel and Margaret Keys's use of social and professional receptions to forward their international activities and personal satisfactions. The records are missing many years including their extensive guest visits and entertaining at "Minnelea," their home in Italy. HB December, 2016
