Dear Sir:

I was most impressed at my recent visit to the Mankato Heart Health Program with the facilities and the program which you have outlined. The explanation of the various factors was most adequate and very timely. The staff was most courteous and I'm very impressed with the program. I feel that it has helped the people in the area become more aware of cardiac illness and any help that the physicians can get in improving the lifestyle of their patients is certainly a plus.

I hope that we will be able to continue to screen as many people in the area as possible.

Very sincerely,

*John J. Heimark*
