Henry Blackburn, M.D.
Professor of Medicine
University of Minnesota
School of Public Health
Laboratory of Physiological Hygiene
Stadium Gate 27
Minneapolis, Minnesota 55455

Dear Henry:

I have just reviewed the American Heart Association nutrition report in the April issue of *Circulation*, 1982 and I was delighted to see your name on this important document. May I just bring you up to the latest development from Evans County because you or someone in the committee mentioned the previous Kark et al 1980 report on cholesterol and cancer in Evans County. Enclosed you will please find a draft of a lecture which was presented by Dr. Tyroler at the Oil Chemists Society meeting in Chicago early in December of 1981. Al Tyroler is presenting a revised and extended version of this particular lecture at the forthcoming Berlin Atherosclerosis Symposium. Please review Figure 1 and 2 and in the text only, pages 4 through 7. Particularly the Figures should be fascinating to you and anyone connected with this interesting research problem.

I am looking forward to meet you in Berlin and with kind regards,

Cordially yours,

A handwritten signature in cursive script that reads "S. Heyden /so".

Siegfried Heyden, M.D., Ph.D.
Professor, Department of Community and
Family Medicine
