Dear Henry:

Thanks for the notes on the ms. on the Finns examined in 1956. I shall await response from Martti, Sven, and Alessandro before final disposition of the ms. Acta Medica Scandinavica would be most appropriate; the Lancet would get speedier publication but the ms. is a bit long for the Lancet.

When I am back at Minnelea I intend to start again on the ms re cholesterol and cancer. It was for that I had talked with David Jacobs and Dean Surbey about getting cross-classifications done here. Jacobs said he would be most happy to do this if it would mean he would have his name on the paper and Dean Surbey said it would not be difficult to run. Moreover, when I laid out the job in detail, identifying all locations of the variables, etc., and added that I could provide some money for the costs, Dean said, fine! and thought the work would be done by last Friday. But yesterday (Monday the 10th) when I 'phoned David he said he had been unable to proceed because you had said no.

Very well; I'll not make further mistakes.

About the affair for Henry Taylor, I am very sorry that it is fixed for a time when to participate would mean a special trip for me at a personal cost I cannot afford. As it is, the best I can do will be to send a cablegram of congratulations and regrets. Travel money is difficult and I have no idea where to turn.

Travel expense is the obstacle I see to getting Grande and Lange Anderson to join on May 29. AS to Jerry Morris, he would certainly require travel expense if, indeed, he could overcome his increasing dislike of air travel.

Yours,

Ancel Keys
