May 28, 1982

TO: LPH Staff

FROM: Henry Blackburn/Administrative Executive Committee

SUBJECT: Senior Administrator

I have the great pleasure to announce that Dean Surbey is assuming the overall responsibilities of Senior Administrator for the Lab. This appointment recognizes the need for this function in the Laboratory, and is based on his demonstrated ability, experience, training, career goals and management style and skills.

Dean Surbey's appointment has the enthusiastic support of the Administrative Executive Committee members -- Dr. Prineas, Gretchen Newman, and Jo Schroeder. Dean will serve as executive to that committee and will report directly to me.

He will be announcing before long assignments for the administrative staff, including reorganization of the data center.
