his recent reply.*

Dear Professor Leeder:

This is a personal note to let you know that I am going to spend mid-December to mid-February in Sydney on my own private "mini-sabbatical." Stewart Truswell has arranged housing and library privileges and I hope to do a little writing to close off an era of my work and thinking.

I plan not to travel widely but would nevertheless very much like to meet with you. If there were a moment during your summer when you will be around the department and available, please let me know.

Cordially,

Henry Blackburn, M.D.  
Professor and Director
