Malden C. Nesheim, Ph.D., Director
Division of Nutrition Science
Cornell University
Savage Hall
Ithaca, N.Y. 14853

Malden
Dear Dr. Nesheim:

I see from my earlier letter to you in April that I confused you with Bob, as you may have confused me with George. I think that is all straightened out now. I must say it was marvelous to hear your broad, thoughtful and sound approach to the individual and to the population issues in nutrition and genetic interactions.

Cordially,

Henry Blackburn, M.D.
Professor and Director
