Japan

Dear Colleague:

I am very much looking forward to joining the U.S.-Japanese Health Treaty in the first week of December in your institute. This is to let you know that if your entertainment plans permit, it might be an added delight for us all for me to join with the Osaka Rascals for an hour or so. That is a Traditional Jazz Band, good friends of mine who are residents of your city. We have played together on several occasions over the years and have a warm regard for each other. They are great entertainers.

Dr. Dwayne Reed has suggested that this might fit at the first evening informal gathering of November 29th, or in conjunction with the Wednesday evening occasion, December 1st. Of course, this idea should not interfere with any existing plans. The name and address of the band contact is Junichi Kawai, L1-4 Minami-Horie, Nishi-Ku, Osaka 550, Japan.

Cordially,

Henry Blackburn, M.D.  
Professor and Director
